# JUMLAH ORANG HILANG BERTAMBAH, WARGA CARA SEMAKIN RESAH!

Contrary to popular belief, Lurah Jumrah is not the only one to complain that it has become a source of general Lurah dissatisfaction. A Lurah in another village, Lurah Sambutan, also has complaints about the number of people who have been lost. Professor Ali Hamzah, a member of the Lurah Sambutan's advisory board, and quite a prominent figure in the local community, has also expressed his concerns. "The number of people who have been lost is increasing, especially in the last few months. This is a serious concern for us. We have to take action to prevent this from happening again," he said.

According to Lurah Sambutan, the number of people who have been lost is not only increasing, but also becoming more frequent. "In the last few months, we have had several cases of people going missing. Some of them have been found, but others have not. This is a very concerning issue for us. We have to take action to prevent this from happening again," he said.
